

SAMSUNG

Smart Hospitality Display HAU8000 Series (EU)

43 50 55 65 75

HIGHLIGHTS

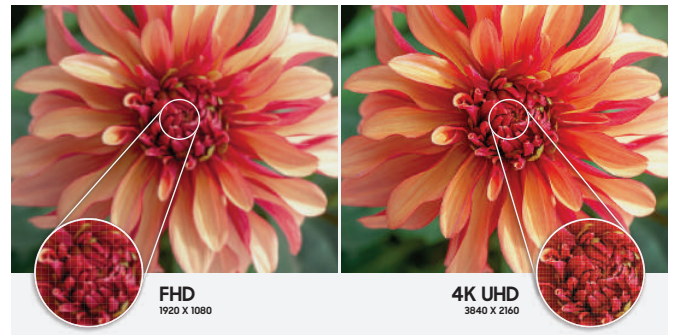

- Enhance content with 4K UHD Crystal Display for perfect picture quality
- Slim design that complements any interior while saving space
- Centralized management of hotel displays worldwide
- Optimize promotions and offers using personalized guest insights
- Customize content and empower system integrators to build web applications

Key features

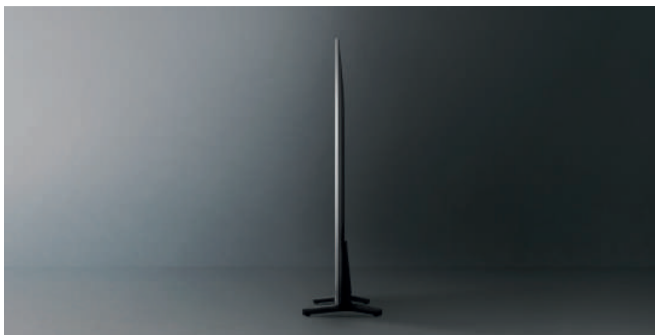

Lifelike color, in its purest state with fine crystal

Elevate your hotel's entertainment experiences with Dynamic Crystal Color. With a billion shades of color, every subtlety can be seen from the comfort of the hotel room.

Feel the reality of 4K UHD Resolution

Offer guests the vivid picture quality of home entertainment systems, using upscaling technology to display content in UHD resolution (3,840 X2,160), four times the pixels of standard FHD.

Sleek and slim, more than ever

Increase flexibility with ultra-slim design, enabling hotel operators to create optimized room layouts that increase guest comfort.

The richer sounds of synergy between TV and soundbar

By seamlessly synchronizing the Samsung TV and soundbar, this powerful combination delivers sound simultaneously from both devices without any complicated setup.

HAU8000 Hospitality Solution

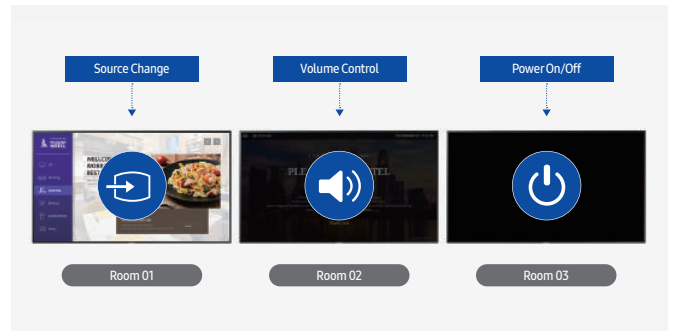

LYNK Cloud

Streamlined property management

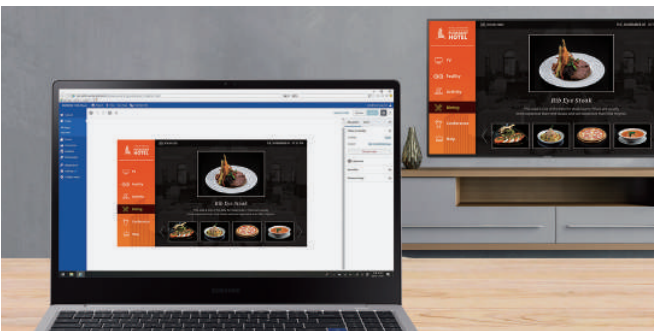

With online access that supports multiple users, Samsung LYNK Cloud is ideal for global hospitality operations with centralized management, giving users control of their hotel displays worldwide.

* LYNK Cloud does not support management of properties within China.

Integrated device management

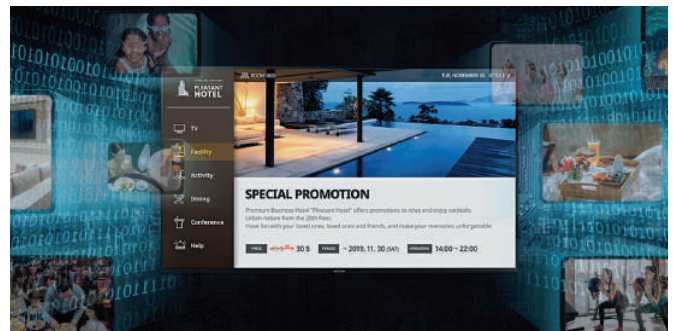

Quickly update in-room TVs from a centralized source with Samsung LYNK Cloud. Managers can modify channel maps and program guides and control basic functions, making it easier than ever to provide support and maintenance.

Content creation and custom interactions

Curate your hotel's in-room experience with LYNK Cloud. Create and remotely deploy web-based content to each in-room TV for a tailored feel to your property. With interactive requests support, you can provide the easiest way for guests to make room service orders and book spa appointments.

* Some features may not be compatible with hotel's current platforms.

Data-driven promotional planning

Samsung LYNK Cloud enables optimized promotional content delivery based on integrated guest data available through the hotel PMS, helping managers to uncover business insights.

H.Browser

Simple, compatible web app development

Create greater content development flexibility. H.Browser provides superior in-room entertainment and enables system integrators to develop smarter hospitality solutions. Apps stored in TIZEN OS are supported by Web Simulator and Remote Web Inspector tools to refine performance and security.

Home App

Easier, Faster control with Home App and Eden UI

Incorporate welcome messages, add logos/branding and provide other useful information such as phone extensions to various guest services. Display on the Eden user interface is a sleek, fast and simple solution.

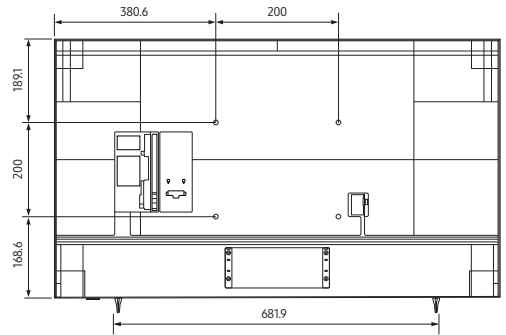

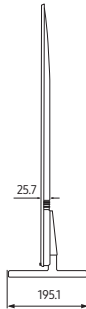

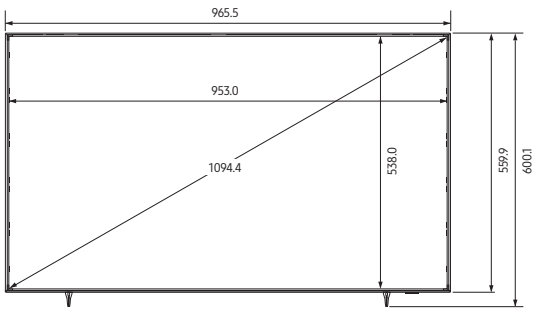

* Available apps may vary by region.
